-Applications for are due by May 28, 2010.

ITEMS OF INTEREST
Gray Matter and Graying Hair
-Although the effects of aging on the brain remain mysterious, a growing body of evidence suggests that a variety of lifestyle factors – diet, stress, exercise and intellectual stimulation among them – may hasten or slow changes in mental ability.
-Four of the nation’s leading researchers on the subject, who have written almost 600 journal articles, will share their expertise during the 2010 Kendon Smith Lecture Series April 30-May 1 in the Sullivan Science Building. Sponsored by the Department of Psychology, the lecture series – “Maintaining Mental Fitness: Influences and Interventions” – will be held in Mead Auditorium. For more information about the lectures, all free, call 334-5013.

NC TraCS Institute Grant Programs
NC TraCS Institute is the academic home of the NIH Clinical and Translational Science Awards (CTSA) here at UNC-CH.
-NC TraCS offers a Pilot Grant Program with $4.3 million available this year to support basic, clinical, and social scientists for bench-to-bedside and bedside-to-practice translational research. The goal is to promote development of novel solutions that will ultimately improve patient and community health outcomes for the citizens of North Carolina.
-NC TraCS Pilot Grant Program offers $2,000 grants to assist researchers in implementing a proposed study or move a research project forward by providing rapid access to funds that will support almost any aspect of promising and innovative research. The next submission due date for a TraC$2K is April 20, 2010.
-NC TraCS offers $10,000 grants to support researchers with the early development of a research idea or to expand an existing study beyond the original scope into promising new directions. The next submission due date for a TraC$10K is June 8, 2010.
-NC TraCS Pilot Grant Program offers $50,000 Grants to serve as a stimulus for new research initiatives aimed at obtaining sufficient preliminary data to allow new applications for extramural funding. TraCS gives preference to new ideas from multidisciplinary teams of researchers. The $50K grants require matching from participating schools, departments, centers or partner organizations. The next submission due date for a TraC$50K is August 10, 2010.
-For the TraC$K50 grant cycle due date April 13, 2010, an "email of intent” must be submitted to nctrascspilots@unc.edu. The email should contain the full names of the PI and all Co-Investigators, the title of the application, and the “Research Type” (Pilot, Collaborative - Type I and Collaborative Type II) and have the subject line: "Email of intent for TraCS $50K".
-For complete information about NC TraCS Funding please visit us at www.tracs.unc.edu.
